T. PAVAN GOWDA

Electronics & Communication Engineering Student
Phone: 8277740580 | Email: pavan.t2517p@gmail.com
Karnataka, India | LinkedIn: linkedin.com/in/pavan-t-gowda-b9a0b239b

CAREER OBJECTIVE

Motivated Electronics & Communication Engineering student seeking an internship to apply fundamentals of electronics, embedded systems and programming while gaining practical industry experience. Interested in building reliable hardware-software projects and developing strong engineering problem-solving skills.

EDUCATION

B.E. – Electronics & Communication Engineering | Adichunchanagiri Institute of Technology (AiT), Chikkamagaluru | VTU | Expected Graduation: 2029 | Current CGPA: 7.3

Pre-University (PUC) | Harish PU College | 83%

SSLC | MES School | 89%

TECHNICAL SKILLS

- Programming: C, Python
- Embedded Systems: ESP32, Arduino IDE, sensors and basic IoT concepts
- Electronics: Basic circuit analysis, sensors, microcontrollers, serial communication
- Tools: Arduino IDE, Microsoft Office
- Core Areas: Digital electronics, network analysis, basic electrical/electronic measurements

PROJECTS

ESP32-Based Energy Monitoring & Automation Dashboard

- Designed a concept for real-time monitoring of electrical energy usage using ESP32 and current sensing.
- Planned on/off automation for two appliances with live monitoring and estimated electricity-bill visualization.
- Integrated sensor data processing with a dashboard-oriented approach for easier energy tracking.

Smart Blind Stick – Assistive Embedded System

- Developing an ESP32-based assistive device using ultrasonic/IR sensing for obstacle detection.
- Includes buzzer-based alerts and an SOS/emergency feature concept.
- Focused on low-cost embedded design and practical real-world usability.

RELEVANT COURSEWORK

Network Analysis • Basic Electronics • Digital Electronics • Programming in C/Python • Microcontrollers • Electrical & Electronic Measurements

STRENGTHS

- Problem solving and analytical thinking
- Quick learner with interest in embedded systems and electronics
- Teamwork, project-oriented learning and willingness to learn new technologies

CERTIFICATIONS

None currently
